

Wearable Art: Pipe Cleaner Rose Pin

createch

SAINT PAUL
PUBLIC LIBRARY

Materials:

- 3 colorful pipe cleaners to create the petals
- green pipe cleaners for the leaves
- 1 safety pin
- Scissors

Steps:

1) Fold the three red pipe cleaners and the green pipe cleaner in half. Cut them at the fold.

2) Now you should have six small red pipe cleaners and two small green pipe cleaners.

3) Bunch the 6 red pipe cleaners together with one of the green pipe cleaner.

4) Place the other green pipe cleaner in the center of the bunched pipe cleaners and fold it in half. Twist the green pipe cleaner to tighten the bunched pipe cleaners together.

5) Spread the red pipe cleaners out and start to twist it into the center as a swirl. This will create the petals.

6) Arrange the petals at different angles so that it start to look like a rose.

7) Form a leaf by either twisting the green pipe cleaner into the center or leaving it straight.

8) Open up the safety pin and stretch it out into a 90 degree angle. Place the rose behind the pin as shown, making it easier to twist the rose onto the pin.

9) If there is some remaining of the green part from the safety pin, just twisted it upward.
