Land Acknowledgement

Every community owes its existence and vitality to generations from around the world who contributed their hopes, dreams, and energy to making the history that led to this moment. Some were brought here against their will, some were drawn to leave their distant homes in hope of a better life, and some have lived on this land for more generations than can be counted. Truth and acknowledgment are critical to building mutual respect and connection across all barriers of heritage and difference.

We begin this effort to acknowledge what has been buried by honoring the truth. We are standing on the lands of the Dakota People. We acknowledge the Ojibwe and Ho Chunk people who also call this place home. We pay respects to their elders past and present. Take a moment to consider the treaties made by the tribal nations that entitle non-Native people to live and work on traditional Native lands. Consider the many legacies of violence, displacement, migration, and settlement that bring us together here today.

Please join us in using this community space as a place for growth and reconciliation. We invite you to use this moment together to examine our cultural narratives that perpetuate violence against indigenous communities and work to create space to engage with and learn from indigenous community members.

Please remember to...

- Recognize and acknowledge the history and inequities that impact our individual communities.
- Share your truth in ways that respect other people's truth. All contributions and opinions matter and count.
- Venture to be honest, with gentleness, about real experiences.
- When the going gets tough, turn to wonder. "I wonder what brought them to this belief. I wonder what they're feeling right now. I wonder what my feeling teaches me about myself."

Seek funding for transformation projects
Scope of our Work

**Why:**
- As public spaces, Saint Paul libraries are a unique and essential element to our city’s social infrastructure.
- As we reckon with the dual pandemics of COVID-19 and systemic racism, we have an opportunity to reimagine, redesign, and invest in community libraries that meet the needs of residents now and for the next generation.

**How:**
- Work together across similarities and differences, to co-create library designs and case for investment that reflect a community-informed vision:
- Spaces that are safe, inviting, affirming, and comfortable for people of all cultures, abilities, and communities.
What: Engage community in co-creating schematic designs for the transformation of 3 neighborhood libraries that are well loved, well used, and well worn.
Imagine gathering spaces in our communities for neighbors to meet and connect, for job seekers to access Wi-Fi and resume help, for children to discover and learn through play, and for community members to work, study, and access services. These free, accessible spaces that welcome everyone exist in our public libraries. They are neighborhood resilience centers.
Investment Needs

Transform three neighborhood locations that are outdated, in poor condition, struggle to support high use, and have not been renovated in 30+ years.

At all locations:
- **Improve technology**
- **Incorporate play and learn spaces**

Artist Advisory Cohort
Tricia Heuring

Tricia Heuring is a Thai American curator, public art consultant, and educator. Her practice has been shaped by creating opportunities and community for emerging, BIPOC artists in the Twin Cities. As a co-founder of Public Functionary, a Northeast Minneapolis-based multidisciplinary arts platform, she supports under-resourced artists in building economic sustainability through studio practices and exhibitions. Advocating for an equitable and inclusive MSP arts sector has led to consulting and teaching with civic, grant-making, public art, and academic organizations. As a thought leader in the arts, she has been a speaker at Tedx UMN, MCAD, Pollen Midwest, Walker Art Center, Common Field, Springboard for the Arts, Creative Mornings, American Swedish Institute, The Coven, among others. Tricia is a graduate of Macalester College and holds an M.A. in arts management from St. Mary’s University.
The Artist Advisory Cohort will participate in the ongoing community engagement effort for the design of the Hamline Midway, Hayden Heights and Riverview Libraries. This includes regular meetings and events with stakeholders, and examining data collected to date through previous engagement efforts. They will co-facilitate and lead ideation on creative engagement sessions with LSE for community feedback. They will identify points of particular relevance, whether tensions, connections or opportunities, and develop creative encounters for further public conversation around those points. They will also reflect on their own experience as St. Paul artists and community members to creatively inspire dialogue about the future of libraries as cultural hubs.

The artist advisory cohort will review and represent community interest in late-stage design review and provide recommendations for arts engagement and/or incorporation of public artworks in future phases of the project.
Artist Advisory Cohort

Rebekah Crisanta de Ybarra (Maya-Lenca Nation) is a multidisciplinary artist, musician, and culture bearer whose work is rooted in Indigenous Futurisms. She has extensive experience in community-based social practice, public arts, creative place-making, and intergenerational arts education with Twin Cities nonprofits, schools, and libraries. She is a 2021-22 Jerome Hill Artist Fellow. Previously she has been a recipient of the Knights Art Challenge as an artist/curator creating Electric Machete Studios Latinx art and music production house and gallery. She has also worked with Creative City Making public art projects for building equity in the Minneapolis departments of Regulatory Services, and with Forecast Public Art creating temporary murals for the Flint Hills Festival. She is currently working with Public Art St. Paul and the City of St. Paul on a public art project honoring the West Side Flats history and Wabasha corridor.
**Artist Advisory Cohort**

**Bayou** is an artist and designer born in St. Paul. Bayou creates murals, art installations, digital illustrations, digital and print materials for artists & organizations, woodwork, and works as a teaching artist. Bayou's art and design embody themes of nature from the micro to the cosmic, black and collective liberation, healing trauma, time, portals, geometry, setting intentions for affirmations, asking questions, symbols, and identity exploration. Bayou has created and co-facilitated art-based workshops, events, community gathering, and exhibitions with the Million Artist Movement, Kulture Klub Collaborative, Cultural Wellness Center, Northern Lights, Black Table Arts, Public Functionary, Jungle Theater, Exposed Brick Theatre, and Hennepin County Libraries. Bayou was a member of the Northern Lights Program council for two years helping reshape and reform how Northern Lights MN programmed and selected artists for the Northern Spark art festival. Bayou has held an artist residency at the Bell Museum from 2019-2021 focused on climate change, was selected as a 2019-2020 curatorial fellow at MIA, and has received several grants in collaboration with community organizations and artists throughout the Twin Cities.
Xee Reiter is a self-taught artist specializing in watercolor, pen, and ink illustrations. As a first-generation Hmong American, you can largely find cultural influences in her works. Her artistic exploration includes but is not limited to portraiture, art journaling, mural art, typography, and calligraphy works. Xee lives in Saint Paul, Minnesota with her husband and three kids. You’ll find her with sketchbooks, pens, and pencils doodling across the cities, from park trails to Hmong Village, as well as in her own backyard where she has started a mini urban farm and garden, complete with chickens and a wide variety of plants and vegetables. She has worked with local organizations such as TPT PBS, Minnesota Department of Health, Minnesota Public Radio, The Ordway, and Hmong Museum to connect community through her artistry.

Your ideas

Via the Mentimeter Survey:
All 3 library designs will aim for this goal: co-create with neighbors a safe, inviting, affirming, and comfortable library for people of all cultures, abilities, and communities.

Rank your priorities to help meet that goal.

- A space that reflects the cultures in my community
- Improve accessibility for people with mobility challenges
- Provide access to social service programs
- Create sustainable and environmentally friendly libraries
- Preserve architectural design elements
- Add community meeting/program spaces and study rooms
- Separate quiet & loud spaces acoustically
- Enhance play & learn in children's areas
- Improve technology in meeting rooms and for working/studying at the library
- Create dedicated teen space
- Create connections to nature and outdoor space
